WEISER LOCK®

WEISER LOCK®

- Weiser products feature six warranties
 1. Brilliance Full Lifetime Finish Warranty (Prestige, Welcome Home and Powerbolt Series). This warranty covers the finish of exterior parts of brass and chrome sets.
 2. Full Lifetime Mechanical Warranty (Prestige, Welcome Home and Powerbolt Series). This warranty covers defects in material and workmanship, other than normal wear to the lock's finish.
 3. 15-Year Mechanical Warranty (Elements Series). This warranty covers components for 15 years, otherwise as per above (2.).
 4. 10-Year Finish Warranty (Elements Series). This warranty covers the finish on internal functions of this series.
 5. 10-Year Limited Mechanical Warranty (Basics Series). Knobsets are warranted to the original purchaser to be free from defects in material, mechanical parts and workmanship for ten years from the original date of purchase.
 6. 5-Year Limited Finish Warranty (Basics Series). Knobsets are warranted to the original purchaser to be free from finish defects from the original date of purchase.
- Availability

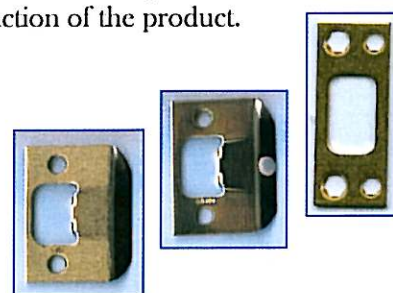

Cook Productions Limited endeavours to maintain stock levels of those products advertised as being available ex-stock. Shipping problems occasionally cause delays beyond the control of this company. We will advise of any problems as and when they may arise wherever practicable.

Cook Productions Limited will indent Weiser products direct from the USA to customers specifications where this is desired. Lead time for such orders has been approximately 12-16 weeks (subject to confirmation). Please refer to terms for such orders in the Conditions of Sale section of the Price List.

Product Notes

- With locking functions, the interior knob/lever **MUST** be installed in the locked position. Failure to do this will result in excessive force being used and may lead to malfunction of the product.
- Strike plates supplied as standard are:
 - *5101-A* Square Corner Full Lip (AC [Elements] Series)
 - *A5101-AH* Square Corner Full Lip with button (A Series - Welcome Home)
 - *10046* Square Corner Deadbolt Security Strike
- Handing of Weiser leversets:

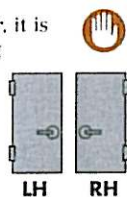

When properly installed, the end of the lever should be pointing toward the hinged side of the door.

How to Determine Hand of Door

When ordering an Entryset with lever, it is important to include leverset handing specifications with your order. Refer to these diagrams to specify the correct handing. Diagrams show outside of door.

- **LH:** Hinge is on left side of door.
- **RH:** Hinge is on right side of door.

- Brilliance Lifetime Anti-Tarnish Finish

WEISER LOCK®

Brilliance™ LIFETIME ANTI-TARNISH FINISH
Will not corrode, tarnish, or discolor

We've discovered the cure for aging!

Our new Brilliance™ Finish guarantees you can buy a beautiful lockset today and that it will still be just as beautiful many years from now. That's because locksets with the Brilliance™ Finish are bonded during a special process that allows Weiser Lock to guarantee the locksets will look good for life.

This bonding process is actually the same process used to protect the space shuttle from burning up during re-entry into the earth's atmosphere. It's that tough. So there's no tarnishing, no flaking, no pitting, no discoloring. Ever.

Elements like humidity, UV rays, salt spray, snow and ice, as well as greasy hands, wedding rings and paint thinner,

take their toll on locksets every year. So builders and homeowners are looking for something that looks beautiful when it's new, and continues looking beautiful for life. Our patented LTAVD process puts a Brilliance™ Finish on exterior locksets that's so tough and durable it's virtually indestructible.

Some passage sets are available finished externally with Brilliance for use with a second locking device such as a Deadbolt or Powerbolt.

- Finishes

Weiser products are crafted in the finishes pictured. Satin Nickel will be available from January 1, 2001 in the Prestige and Welcome Home Series. Bright Brass/Satin Brass (34), Oil Rubbed Bronze (10B), Satin Brass (4) and Satin Bronze (10) are no longer produced.

Cook Productions Limited mainly carries products in Bright Brass, Bright Chrome, Satin Chrome and Antique Brass. The table on the following page illustrates the Weiser product range and those available ex-stock. Please enquire as to other finishes we may have available ex-stock.

- Knob/leverset functions

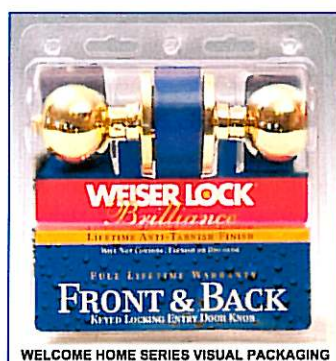

Highlighted lines show those functions carried ex-stock by Cook Productions Ltd (except '01' functions).

All entrance leversets have a knob externally with Brilliance finishing.

Number	Function and Description	Knob	Lever
12	Dummy Trim: Single knob/lever, wood screw mounting.		
17	Dummy Trim: Single knob, with threaded shank. Install with either machine screw or with machine/wood screw.		
18	Dummy Trim Set: Mounted with threaded stud which engages threaded shank of knobs. Lever mounted by machine screw through posts.		
100/101	Hall /Closet Set: Latch bolt operated by knob/lever from either side, both knobs/levers always free.		
160	Connecting Exit Lock: Deadlocking latch bolt operated by free-turning knob/lever inside. Blank plate outside.		
230	Patio Lock Set: Both knobs locked by turn button in inside knob; deadlocking latch standard. Exterior knob not keyed.		
300/301	Bed/Bath Set: Push and turn knob locking inside; knob with emergency release opening outside. SP Series: locks by push button interior.		
330	Bed/Bath Set: Turn button locking inside; knob/lever with emergency release opening outside.		
500/501	Front/Back Lockset: Keyed knob outside; push and turn knob locking inside, deadlocking latch standard. SP Series: keyed lever outside; push button locking inside. Inside lever always free. Turning inside lever unlocks both levers. Deadlocking latch.		
510/511	Front/Back Lockset: Latch bolt operated by knob from either side. Inside knob always free. Dual locking button operates as follows: For temporary locking, push inside knob button. Turning key or knob inside releases push button. For permanent locking of outside knob, inside knob button is pushed in and turned to the right. Latch bolt retracted by key outside or knob inside. Locking button must be manually returned to unlocked position. Deadlocking latch.		
520	Keyed Entry Lockset: Latch bolt operated by lever from either side. Inside lever always free. Turn button locking. Locking button must be returned to unlock position to release outer lever. Disengaging outer lever in locked position. Deadlocking latch.		
530	Front/Back Lockset: Keyed knob outside; turn button locking inside. Deadlocking latch.		
560/561	Classroom Lockset: Latch bolt operated by lever from either side, except when outside knob/lever is locked by key outside. Inside knob/lever is always free. Deadlocking latch.		
580/581	Storeroom Lockset: Keyed knob/lever outside; outside knob/lever always rigid; inside knob/lever always free. Deadlocking latch.		

- Packaging

All Weiser products are packaged in visual packs unless specified otherwise. Certain products offer a choice of visual packaging or box packs. All replacement parts, such as latches, are unpackaged.

CONDITIONS OF SALE

1. Prices

Prices are effective from 1 January 2006.

2. Freight

All prices quoted are F.O.B.

All claims to be made in writing within 10 days to the delivery agent.

3. Payment

Terms of payment strictly Nett Payable 20th of the month following invoice date.

All prices exclude GST.

4. Indent Orders

When a product is ordered by Cook Productions Ltd on behalf of a customer, an 'Indent Order Confirmation' form will be issued to that customer. This must be signed and returned to Cook Productions as acceptance of the Indent Terms and Conditions (see sample form on following page). This essentially means that once a special order has been placed, it cannot be cancelled by the customer.

5. Returns Policy

All goods to be returned to Cook Productions Ltd must be accompanied by a 'Returned Goods Approval' (RGA) form (see sample form on following page). This requires that customers must first contact Cook Productions Ltd to discuss their reasons for wanting to return product whether it be for credit, repair or replacement.

Guidelines for returns:

- Goods for return must be accompanied by a clearly visible RGA form otherwise they will not be accepted.
- Goods that have been supplied correctly to order and in good faith are not as a general rule accepted for return. If, at our discretion, we decide to accept such goods for return, a handling fee of \$8.00 plus GST will apply. If these goods are returned in conditions that are not suitable for resale, further charges may apply of which we will advise.
- Goods cannot be accepted by Cook Productions Ltd on a COD basis. Once a claim is assessed as legitimate then reasonable claims for freight will be credited to a customers' account.
- Goods that are returned under a warranty claim will be replaced free of charge.
- Claims for damaged or incorrectly supplied goods must be made within 14 days from date of despatch.

This policy has been developed to assist us to provide a higher standard of service in the following areas:

- **IN HOUSE QUALITY CONTROL**
Effective tracking and recording of returned goods is an integral part of any quality assurance programme. To this end it is essential that numbered RGA forms are generated at our end to maintain control over what comes in and when to avoid returns being overlooked or not processed within a reasonable time frame, leading to accounts not being credited or goods returned or replaced.

- COMPLIANCE OF WARRANTIES

Products which we manufacture or distribute on behalf of other manufacturers are covered by specific warranties, or, in the absence of such, by the Consumer Guarantees Act. In order to comply with specific manufacturers' warranties, it is important that the correct procedure is followed. The issue of an RGA form is the first step towards recognition of a warranty or other claim.
